

HOW DO I USE THE SCRUB MACHINE?

Collect Your Scrubs

Dispenses Correct Size Scrub in a Few Seconds
Deducts One From Your Credit Level for each piece taken

Return Your Scrubs

Adds One to Your Credit Level for each Piece Deposited

How do I use the machine?

- Use your St. Joe's ID badge to scan into the machine to access your scrubs. Your size has been programmed into the system. When you scan your badge, you will be directed to the spot where you can pick your scrubs. When you return your scrubs make sure to return the entire set.
- Only get new pair of scrubs as you start a new shift. DO NOT access a pair to take home with you for your next shift for risk of infection and sufficient supplies for others on the next shift.
- You should be returning dirty scrubs at the end of your shift so that your credits are returned onto your card.
- If your scrubs are visibly with blood/feces, etc. please place the scrub top and bottom into their own clear plastic bags and then return them to ensure the entire machine does not become contaminated (only bag them if they are visibly soiled with bodily fluids).
- If you have any troubles with the machine not returning credits or giving you clean scrubs, please send linenservices@stjoestoronto.ca an email.
- When returning scrubs, do not force the stainless steel door shut – it has a laser inside that detects the presence of scrubs and forcing it closed with break it. Gently push up and let go. It will close on its own.
