Nuance PowerMic Mobile Instructions

Step 1: Download Nuance PowerMic Mobile app on your device from the app store

Step 2: Open this email **on your mobile device** and click the link below
http://powermicmobile.nuance.com/PowerMicMobile/abb97f1b-4522-49aa-ba52-bf3650b00df2/index.html

Step 3: if you have an iphone, click the iOS option, if you have an android pick the android option

Getting Started: PowerMic Mobile
Mobile App Configuration

PowerMic Mobile turns your smartphone into a secure wireless microphone for use with Windows-based desktop clinical speech recognition solutions. Optimized for use with Dragon Medical One and other Nuance healthcare solutions, PowerMic Mobile gives clinicians the freedom to roam from workstation to workstation, room to room, and location to location to complete clinical documentation using a smartphone as a wireless microphone.

PowerMic Mobile must be configured to access your institution's organization in the hosted Nuance Management Server.

Complete these steps to configure the PowerMic Mobile app:

1. Provide the address to this page to providers at your site.
2. Have the providers access this page on their mobile devices.
3. Have the providers access the link below that corresponds to their mobile operating system.
   The link will open and configure the PowerMic Mobile app.

Android

Step 4: Please enter your SMH user name (without the @smh.ca) for the login, this is so it will pair the device with digital dictation. No password is required.

Step 5: Open the digital dictation (https://evr.smh.smhroot.net/) and pick the **Nuance Powermic Mobile** under the microphone option on the Dragon Medical One (DMO) log in screen

If you do not see this DMO login screen when you sign into Digital Dictation, click the flame icon on your dragon bar and click log off. This should direct you to the login page.

Step 6: Open the powermic mobile on your phone and log in. This should pair your device – you will see that the mobile icon on your computer is red. If it is not connecting on your computer, switch from

profile 1 to profile 2 on your phone login.

Your phone screen will show the PowerMic buttons when the device is paired.

If you continue to have issues, please contact the SMH helpdesk and open a ticket. Ext 5751
